ITALIANS MOVE TO NEW BASE

Libyan Army Headquarters Removed From Akdar Mountain Town of Cirene; Garrison Withdrawn From Path of the British Drive West of Tobruk; Report East African Gains

WAVELL PAYS VISIT TO VICTORIOUS MEN

By the Associated Press
Cairo, Egypt, Jan. 25.—(P)—Marshal Rodolfo Graziani has removed his Libyan army headquarters from the Akdar mountain town of Cirene and withdrawn the garrison from the path of the British drive west of Tobruk, according to military circles here. The British said heavy attacks by R.A.F. planes ranging ahead of advancing columns apparently had forced the Italian command to leave Cirene, 145 miles west of Tobruk. Derna was reported left virtually undefended. Reports from the British-occupied base at Tobruk indicated, however, that the main British drive was cutting south of these coastal positions, directly across the Cirenaican "hump" toward the next big Italian base at Bengasi. British tanks and Australian infantry have been reported in the vicinity of El Mechili, southwest of Derna, and almost half-way along the 150-mile inland route from Tobruk to Bengasi. It was disclosed last night that General Sir Archibald P. Wavell, commander of the Army of the Nile, visited his troops in Tobruk Thursday, the day after it fell. He praised the soldiers there—Australians lolling in sun, riding Italian bicycles through streets lined with shell-torn buildings and eating "victory" meals of captured Italian food supplies and wine. The columns already moving to the west were composed of troops held in reserve during the Tobruk attack. The British reported gains, too. (Turn to Page Nine)

DEFENSE BASE BEING MANNED

St. John's, Nfld., Jan. 25.—(P)—The United States troop transport Alexander here to off this port today, loaded with the first United States troops to man the Newfoundland defense base now under construction. Stormy weather made it likely the Alexander would delay her entrance into the harbor. No ceremony is planned here to greet the troops beyond the usual exchange visits of the United States commanding officer, Colonel Maurice Welby, and Governor Sir H. T. Walwyn. A berth has been constructed for the Alexander on the south side of the harbor. The base which the United States troops will man here was a gift from Britain to the United States. When construction is finished the area will have an air base, an army defense force site of 160 acres and a naval base of 22 acres including 1,250 feet of wharfage.

Reduction in Pedestrian Deaths Is Aim of State Police Commissioner

Harrisburg, Jan. 25.—(P)—"Sharply by doing something drastic and it now appears something equally drastic must be done to cut down pedestrian deaths," the state's 1940 highway fatality toll was far in excess of the 1,871 killed in traffic accidents the year before, Adams said that highway deaths were "static" in rural districts where his department has jurisdiction and that the "big increase" was in urban areas. "We've just about reached the limit in reduction of fatalities by enforcing the 50-mile speed limit and patrolling the highways," he said. "You'll notice a majority of the accidents involve pedestrians," he said. "We reduced highway fatalities registered in 1936

HALIFAX TAKES ARREST OVER EMBASSY AT WASHINGTON

Undertakes for British Empire Task of Keeping American Munitions Moving In Increasing Quantities To England

MET BY ROOSEVELT

Washington, Jan. 25.—(P)—Viscount Halifax, the British ambassador, reported after talking for more than an hour with Secretary Hull today that "we see things very much alike." The new ambassador, who was paying his first formal call at the state department after his precedent-breaking reception yesterday on Chesapeake Bay by President Roosevelt, talked briefly with newspapermen after exchanging views with the state department head on international affairs.

By the Associated Press

Washington, Jan. 25.—Fresh from the innermost councils of London's war cabinet, Lord Halifax, new ambassador to the United States, undertook the all-important task of keeping American munitions moving in ever-increasing quantities to Britain's fighting forces.

That he was assured of full cooperation on the part of Washington officials was accepted by Roosevelt after he extended an extraordinary gesture of friendship by receiving him even before the tall, spare Englishman had set foot on American shores.

The manner of meeting between the chief executive and Britain's former foreign secretary, in fact, left veterans in the art of diplomacy searching in vain for a precedent. It capped in drama the envoy's secret crossing of the submarine-infested north Atlantic on (Turn to Page Nine)

JAP MEDIATION IN UNDECLARED WAR INDICATED

Washington, Jan. 25.—(P)—A Tokyo-Berlin maneuver to strengthen Japan's striking power in southeast Asia was believed in diplomatic circles today to be behind the plan for Japanese mediation of the undeclared war between Thailand and French Indo-China. Secretary of State Hull intimates yesterday in informal overtures had been received, perhaps from French quarters, for United States mediation. But he said there had been no conversations (Turn to Page Nine)

KANE MAN SENTENCED FOR AUTO FATALITY

Lebanon, Pa., Jan. 25.—(P)—Lawrence R. Mercillott, 35, of Kane, was sentenced by Judge C. V. Henry today to a year in the Lebanon county prison for involuntary manslaughter. Mercillott pleaded guilty. His automobile collided with another driven by Miss Kathryn, 22, of Myerstown, in downtown Lebanon and Miss Gernert was injured fatally. He testified at the inquest he failed to see a stop sign and drove through it onto the main highway. Mercillott was employed as a carpenter at the Indiantown Gap military reservation. He said he was a first lieutenant in the Pennsylvania National Guard.

ARREST OF SIMA REPORTED

Vice Premier, Charged With Leading Rumanian Revolt, Held as Antonescu Calls on Iron Guardists to Purge Themselves; Gratitude For German Backing Voiced By Leader

NEW NATIONAL PARTY FORMED BY PREMIER

Bucharest, Rumania, Jan. 25.—(P)—Vice Premier Horia Sima, officially described as leader of the Rumanian rebellion, was reported under arrest today as Premier General Ion Antonescu called grimly on Iron Guardists to purge themselves or have him do it for them.

In the past many Iron Guardists have committed suicide at such suggestions from their leaders. General Antonescu, who claims mastery of the nation after a week of blood and terror, announced he was forming a new political organization to promulgate "common spirit with Germany and Italy" and voiced gratitude for German backing.

"I make it a duty and an honor to declare to the nation in these days of greatest sadness that I have behind me the loyal shadow of the great fuhrer and the honor of German might which guaranteed our borders," he wrote at the end of a dramatic account of the rebellion.

There was no elaboration of the report that Sima, Iron Guard chief, had been taken. General Antonescu, Rumania's premier, declared in a signed statement in the newspapers today that his country's week of bloody rebellion began with a mid-night attempt to assassinate him. (A newspaper dispatch to Budapest, Hungary, from the Bucharest said it was reported that Rumanian soldiers had stormed the Iron Guard's "green house" quarters in the hunt for Sima, who had barricaded himself there.)

"Charges of looting as well as rebellion were reported lodged against the leaders. They were accused of sacking synagogues and wrecking the newspaper plants of Universal and Curentul."

An important nest of 250 rebels was smothered at noon today. They were said to have had a large cache of hand grenades, guns, food, liquor and cigarettes.

Antonescu's summary said "men whom I trusted and all those dear children in whom I put such faith" (Turn to Page Nine)

SIX LOSE LIVES AS SNOWSTORM SWEEPS NATION

By the Associated Press
Most of the nation east of the Rockies dug itself out from an icy mantle of snow and sleet today from a storm that took at least six lives including three Pennsylvanians. A Canadian-born cold wave moving south and east from Alberta and a storm area traveling northeast from Texas were expected to lash the Atlantic seaboard and north and south central states again. Blinding snow and sleet whipped the New York-New England area for several hours yesterday, halting army air defense exercises and causing cancellation of all commercial flights to and from La Guardia airport in New York City. Ice and heavy snows covered some portions of Pennsylvania. Sub-freezing temperatures turned a driving rain into sleet and ice in many areas late yesterday, coating highways and damaging communication and power lines. (Turn to Page Five)

BODIES OF ENTOMBED WORKERS RECOVERED

Hazleton, Jan. 25.—(P)—The body of Michael Barkoczy, second of two men entombed in the Trescow mine Wednesday, was found early today by rescue workers, officials of the Glen Alden Company announced. The body of the other victim, Henry Sussick, was reached yesterday afternoon. Company officials said both men apparently had been killed instantly by the rush of hundreds of tons of coal and rock.

Staged Hold-ups Here

Fred Lewis Sivi, 23, left, and Henry Simon, 24, of Jamestown, apprehended by Jamestown police early yesterday morning after they had held up the Times Square Service Station in this city, are shown here in the Jamestown jail shortly after their arrest.

Large Audience Attends First of Two Concerts by District School Musicians; Repeat Program Tonight

PAIR ARRESTED FOR JOBS HERE GO TO BUFFALO

Hundreds of local school musicians, who have heard much concerning regional and state-forse competitions but know little of the details and actual requirements, were given an excellent opportunity in Beatty school last evening to learn of what championships are made.

Men Who Held up Warren Service Stations Are Questioned in Series of Robberies Recently in New York State City

The occasion was the first of two public concerts being presented by the all-student band representing the Northwest District, Pennsylvania State Music Association, the group from which eligibles will be chosen for the all-state band later in the spring.

Harry A. Summers, local director, introduced the guest conductor, Walter Eder, of Ithaca College, Ithaca, N. Y. after expressing briefly his sincere appreciation for the splendid cooperation that has made the three-day band festival move so smoothly.

The concert which followed was the finished product resulting from many hours of painstaking practice in their own schools, when the approximately 120 young students musicians prepared for the intense rehearsals under the Eder leadership on Thursday and Friday following their arrival in Warren.

It was a program of which any community or director might be proud and was played with a finish which might be expected of a well-trained professional group; a very definite contrast to earlier days of amateurism when the players must have reached his majority before he was honored with an invitation to sit in with his elders.

For many, the most satisfying number on the program was the "Scenes from the Sieracki" by David Bennett, depicting a day's trek over desert and through the mountains, from the break of dawn to the final dedication of the night's beauty. Besides allowing the display of the fullness of the ensemble instrumentation, this composition offered opportunity for featuring of trombone, clarinet, flute, bassoon and trumpet sections. In addition it was of sufficient modern arrangement to appeal to those who are the product of a current musical age, accounting in great measure for the students' own pleasure in its playing. International Situation

By the Associated Press
Rumanian rebels: Horia Sima, head of pro-Nazi Iron Guard and leader of the bloody rebellion in Rumania, reported arrested in Premier General Ion Antonescu's spreading purge. The air war: British bombers strike at German submarine base in France despite bad weather over English Channel; England enjoys respite from German airmen. German claim bombers damaged two British battleships and heavy cruiser in Mediterranean attack. On the seas: Italian claim submarine has sunk a 7,000-ton British auxiliary cruiser in the Atlantic "loaded with troops." In Africa: Italians reported withdrawing from north and east Africa in face of continued British advances; Derna, Libyan port 65 miles west of Tobruk, reported left virtually undefended. In Albania: Greeks take 530 more prisoners and report seven Fascist divisions have been forced from their positions.

DEFENSE COMPROMISE ON Bases on MEASURE ASKED INVASION PROGRAM

Administration Asks Influential Republicans in Congress to Define Terms Under Which They Would Cooperate

PRELIMINARY SURVEY VIRTUALLY COMPLETE

Washington, Jan. 25.—(P)—The army and navy are expected to award contracts within the next few days for construction of a chain of eight naval, military and air bases; Final Agreement on Sites Reached With London Government

Washington, Jan. 25.—(P)—The administration, bidding for congressional unity on its Aid-to-Britain program, was reported today to have asked some influential Republicans in Congress to define the compromise terms under which they would be willing to go along on the lease-lend bill.

Apparently moving to minimize the threat of lengthy controversy, administration combatives were said to have urged opponents to draft amendments embodying the restrictions which they have said should be written into the measure.

The chief changes suggested thus far would limit operation of the president's proposed lease-lend powers to two years, restrict the extension of credit for supplies, fix a ceiling on expenditures, prohibit the use of naval escorts for convoys and curb the president's power to transfer equipment that might be considered by the army and navy to be necessary for national defense.

Republican members said that if "three or four amendments" such as the time and expenditures limitations were accepted, the bill would be quickly approved by the committee.

Democratic leaders on the committee privately said they were willing to accept revisions and it was believed possible the measure might be sent to the house floor next week.

PLAN EXTENSION OF EARLY TAXES FOR TWO YEARS

Harrisburg, Jan. 25.—(P)—Attorney General Claude T. Reno said today he had started drafting bills to extend the Early Emergency taxes for relief another two years. Separate bills will be introduced continuing the taxes, established in 1935 from June 1, 1941 to the same date in 1943.

These taxes are: Four mills on personal property (another four percent is collected and given to the counties); two cents on cigarettes; 10 percent on liquor; seven mills on corporate net income; eight mills on gross receipts of utilities; four mills on bank shares; and four mills on corporate loans.

They yield approximately \$80,000,000 a year, all earmarked for relief. The state now is spending about \$60,000,000 a month for relief.

Gov. James announced weeks ago he would recommend the (Turn to Page Five)

RAILROADS ARE SET TO HANDLE ANY INCREASES

Pittsburgh, Jan. 25.—(P)—The nation's railroads, profiting by lessons learned in the World War, today are ready to transport any quantity of material needed in America's preparedness drive, a group of railroad executives declared.

"We can do the job we can handle anything," was the typical comment expressed by rail chiefs in informal interviews at the 40th annual dinner of the Pittsburgh Traffic Club last night.

Martin W. Clement, president of the Pennsylvania Railroad spoke of improvements in passenger and freight services during the past quarter-century, and declared that (Turn to Page Five)

SCHOOLS NOT BADLY AFFECTED BY RAIDS

London, Jan. 25.—(P)—Despite air raids and other war conditions, more than 5,000,000 children are registered for school instruction in England and Wales, a board of education survey disclosed today.

The survey, cited as showing that "pessimism and despair are unjustified," set forth that less than a quarter-million of the children were enrolled on a less-than-full-time basis.

Total registration in elementary schools was 4,600,000 and in secondary schools 413,000.

Former Ambassador to France Asserts Western Hemisphere Would Be Invaded if British Navy Were Destroyed; Denies He Gave Indication That United States Might Enter War

NO TWO-OCEAN NAVY SEEN BEFORE 1946

Washington, Jan. 25.—(P)—William C. Bullitt, former ambassador to France, declared today that "the German propaganda machine" was responsible for reports that he had made statements abroad that the United States would come into the war.

He made that statement before the house foreign affairs committee while testifying in support of the administration's aid-Britain bill. In so testifying, Bullitt said that invasion of the western hemisphere would be "almost certain" if the British navy were destroyed and a "totalitarian" power gained control of either the Atlantic or Pacific before the United States' two-ocean fleet is ready.

Later in response to questions by Representative Rogers (R-Mass.), the witness said that he had "always been of the opinion that the United States would stay out of this war if it possibly could and I so informed every prime minister of France while I was ambassador."

Chairman Bloom (D-N.Y.) interrupted and said that as long as Mrs. Rogers had raised the question, the former ambassador was at liberty to take all the time he desired to give the country the facts.

Bullitt said the story that he had led France to count on United States' entry into the war was "invented as we all know, by the German propaganda machine and spread by it and by dupes."

He said he would be glad if "every dispatch, communication or telegram" that he had sent to the state department while he was in Paris, "could be published tomorrow morning."

ESCAPED NAZI PILOT IS HELD

Ogdensburg, N. Y., Jan. 25.—(P)—A German pursuit pilot who escaped from two British prison camps and a Canadian prison last after being forced down in England Sept. 7, arrived examination today on a charge of "entirely this country without reporting to a United States immigration officer."

He was remanded to jail in lieu of \$5,000 bail pending action of a federal district court grand jury convening in Albany Jan. 30. Chief Inspector of Immigration Kull U. S. border patrol, preferred the charge.

An immigration official said the pilot, Baron Franz von Weiz, Messerschmitt squadron leader, claimed he crashed into another German plane while coming out of a p.p. move, after shooting down three British planes over London and was forced down, unhurt.

Young 4-H Club Stock Raisers Get \$20,000 From Sale of Winners

Harrisburg, Jan. 25.—(P)—The final day's of a contest to apportion prize money to the 4-H Club stock raisers, closed today with the sale of the winners' stock for the exhibition at near the \$50,000 mark.

Young Hubert's champion met a buyers' market on the auction block and the sale price was far below the 62-cent record for the year, the 52½ cents paid to Raymond Huber, Leroy's brother, for the 1940 purple ribbon winner.

The 1,120-pound, 4-year-old champion was purchased by Harvey Kipp of Bethlehem, who also bought the grand champion of 1940, the three Southdoxes, brought 23½ cents a pound to their owner, James Landis of Lancaster county, \$110.55.

JUNIOR RIFLE TEAMS GUESTS OF LOCAL CLUB

The rifle teams of Troop 12, Boy Scouts of America, under the leadership of Leo Gleese, and the Junior Legionnaires, under the direction of Ed Hawley, were guests of the Warren Rifle Club last night at the army range.

About 40 were present and all were required to shoot in the matches, using the lighter rifles used by the boys. The results proved that the elders could do more than take the course which the boys have been taking. For the past two years the ladies have supervised the course and have given the guidance of the rifle club have been schooled in the handling of firearms, with particular emphasis being placed on safety. Many of the older marksmen were much surprised at the manner in which the boys handled the rifles and their accuracy. Chester M. Kockstad provided the sensation of the evening when he took one of the heavier rifles used by the men and proceeded to shoot a perfect score from a prone position. The Warren Rifle Club will go to Truistville next Tuesday night to shoot a postponed league match.

County Schoolmen's Club Is Addressed By M. H. Deardorff

At a meeting of the Warren County Schoolmen's Club, held last night at the Y. W. C. A., M. H. Deardorff, former superintendent of Warren schools, gave an interesting address on vitalizing the History Curriculum.

Mr. Deardorff was introduced by James Springer, of this city, chairman of the program committee. Twenty-nine members and two guests attended the dinner-meeting, which was conducted by President Paul Getts, of Youngsville. Other officers are: Everett Eaton, of Russellville, assistant superintendent of county schools, treasurer, and Archie Hunter, of Warren, secretary.

Carl Johnson, of Starbrick, gave a report of the credit union committee, and announced that such an organization to be known as the "Warren County, Pa., School Employees' Federal Credit Union," has been formed.

Mr. Kirk, a regional director, explained the workings of the credit unions. The next meeting will be held on March 12, at a time to be decided upon by the entertainment committee.

LOCAL CHAMBER OFFICERS NAMED

At the annual organization meeting of the board of directors of the Warren Chamber of Commerce, held yesterday, Roy L. Blodgett, secretary-treasurer of the Pennsylvania Furnace and Iron Company, was elected president for the coming year.

Mr. Blodgett, who has been first vice president of the Chamber and chairman of the industrial development committee, succeeds M. R. Emery, who was not a candidate for re-election to the board at the recent election.

Other officers named yesterday include: First vice president, W. S. Clark; second vice president, W. A. Walker; secretary to the board, M. G. Keller; re-elected; treasurer, L. A. Branch, re-elected.

STRUCK BY TIRE

Norman Williams, 29, of Sheffield escaped with a slight injury to his leg last evening when he was struck by a huge tire which broke loose from a rear wheel of a passing coal truck on West Main street. Williams was standing on the sidewalk in front of the Utopian Theatre when the tire bowled into him. The truck, owned by Taylor Fuel and Transportation Company, Clarendon was proceeding west. The operator and his helper did not notice loss of the tire until they stopped in Weldbank, 5 miles out on the highway.

NEARLY 300 AT YOUNG PEOPLE'S GATHERING HERE

The annual mid-winter institute of Methodist young people, representing more than 50 Epworth Leagues in the Jamestown District, attracted an enrollment yesterday afternoon of about 285.

Sessions are held yesterday and today in the First Methodist church here, with the Grace and Epworth parishes cooperating. The detailed schedule published Thursday is being carried out in class periods conducted by Methodist leaders from throughout the district.

Following registrations late yesterday afternoon, the visitors and many local young people enjoyed a banquet. For the evening session, the local junior choir assisted in a most interesting service which dealt with the work being done in the migrant field by Rev. and Mrs. John A. Petzer, of Madison, N. J. They used to illustrate many pictures taken in that field, including workers in the oyster beds, the cranberry swamps and potato fields.

One of today's features was the address by the dean of the institute, Dr. John A. Galbraith, of Jamestown, N. Y., his first opportunity to address one of these mid-winter gatherings since his election as superintendent of the district. As a former pastor in Kane, however, he was well known to many of those present. Class schedules throughout today and with a final assembly at 3:15 o'clock, when the address will be given by Delbert E. Jolley, of Ripley, N. Y., son of Mr. and Mrs. O. D. Jolley, Water street, and former member of Grace church. One of the outstanding leaders here to assist with classes is Miss Marian Derby, of Newburg, N. Y., girl who is home from the missionary field at Montevideo.

New British Battleship Brings Ambassador Halifax to America

Majestically riding the waters of Chesapeake Bay, the commissioned British battleship King George V arrives off Lord Halifax, new British ambassador to the United States.

Glad in a coat of camouflage the 35,000-ton battleship is pictured above for first time since her launching in 1939. She mounts ten 14-inch guns in her three turrets, is one of the world's most powerful ships.

Stormy Weather; That's What This Army Outfit is Seeking

By NEA Service

The one outfit in the army which hopes and prays for bad weather, and which trucked all the way from Michigan to Camp McCoy, Wisconsin, seeking it, is now being organized at the latter post.

It is a composite regiment of the Fifth Division of snow patrol troops. And they need snowy stormy weather to do their stuff—which is experimentation with equipment and tactics for winter campaigning. What they learn will become standard for all ski troops of the army hereafter.

Just as Fort Knox devises the key tactics for armored divisions, and Fort Benning is developing parachute troops and aerial transport of infantry, so Camp McCoy's 1400 men are trying out every type of snow equipment submitted to the army by sports goods manufacturers, in order to pick the best for standard equipment. Col. Hayes A. Kroner has with him experienced officers of the Second Infantry, some of them with long Alaskan and northern experience.

Toboggans as supply "wagons," skis, snowshoes, outdoor sleeping gear, ammunition, food, medical equipment and clothing that must be light, windproof, and waterproof, are all being tried out. To make the tests practical, the worst weather is needed.

Some of the troops at Camp McCoy try out new-type winter equipment, including sleeping bags, windbreakers, sleds, and other devices used by snow-fighters.

Hospitalization Project Completes Third Year of Service in District

The movement through which the hospitals of western Pennsylvania seek to make hospitalization available as a community project is observing its third birthday. This is the plan in which the Western General Hospital is participating.

The manner in which the public has welcomed the action of the hospitals in making hospital treatment available on as wide a basis as possible may best be had in the announcement by the Hospital Association which reveals that more than 300,000 men, women, and

children are protected against future hospital bills. More than 40,000 persons have been hospitalized under the plan, and the number of babies born in the project exceeds 2,500.

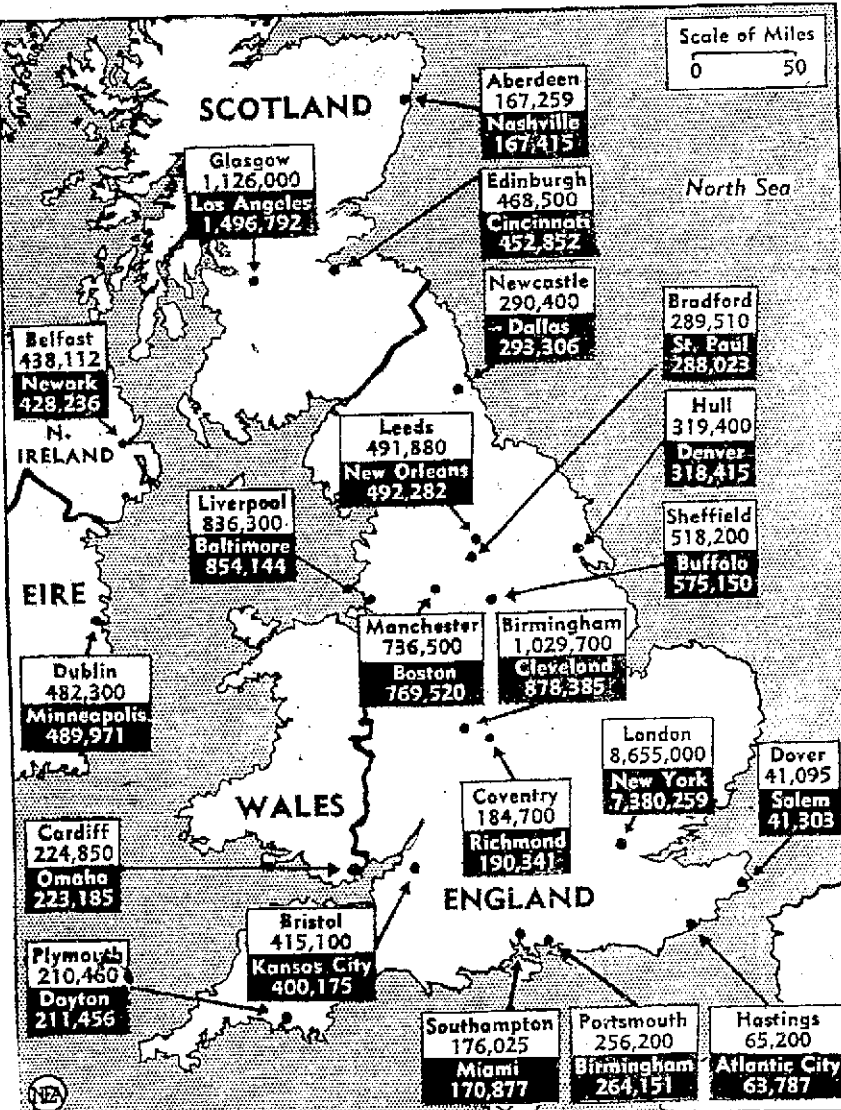

The rapid development of the hospital-sponsored movement throughout western Pennsylvania has made it a pacesetter among the hospital plans of the entire United States. It is announced by Abraham Oseroff, Vice President of the Hospital Service Association and Past President of the Hospital Association of Pennsylvania.

MANY ACTIVITIES ARE PLANNED TO PROVIDE FUNDS

The tag day being conducted on the thorough streets today by a committee of girls operating under the chairmanship of Mrs. Leon Harris, is but one of the activities planned by the Warren County Chapter, National Foundation for Infantile Paralysis, Inc., to raise funds to carry on the nationwide battle against this disease and its frequent crippling conditions.

Another activity is the placing of the "march-of-dimes" banks in prominent locations about the county. Through these dime banks many persons who do not care to participate in the social events planned, or cannot afford the high-er sums, may do their bit for the fund-raising campaign.

Bristol Bombed? Could Be Kansas City

If you're wondering what really happens when you read of the bombing of Birmingham or Liverpool, just imagine it's Cleveland or Baltimore being raided and you'll get the idea. In similar manner you can compare other major cities of the British Isles, as shown on map, with their U. S. population counterparts when they're mentioned in the news.

PLAN COMPILING INVENTORY OF ALL MACHINERY

At a meeting of the chamber of commerce, preliminary plans for making a complete inventory of industrial machinery in Warren county were discussed.

The secretary stated that the purpose is to have the information ready for immediate reference by any industry in this and neighboring districts which needs assistance in handling a defense or other large order.

"Perhaps," he says, "Company A wishes to bid on an order but knows that the lack of a single specialized machine makes it impossible for the company to consider the project. Another local company might have that very machine and be glad to cooperate in handling a part of the order so that the business would come to Warren. With a complete index of Warren's industrial equipment available, any manufacturer can determine whether or not he can handle prospective orders."

Similar surveys are being made in other industrial centers with the cooperation of the Pennsylvania Department of Commerce, and indices will be exchanged in order that the Oil City industrialists who have orders to farm out can ascertain who in Warren could take care of them, and vice versa.

It is known that the National Association of Manufacturers has asked industrialists throughout the country to fill in forms for the association, giving essentially the same information as is desired by the local group; and the secretary of the Warren Chamber asks that industrialists of Warren County who send data to the N. A. M., send a carbon copy to the local Chamber for the purpose stated above.

British Capture Blockade Runner

Hugging the Uruguayan coastline, the 8,199-ton French freighter Mendoza steams northward followed by British auxiliary cruiser Asturias, right, which keeps outside territorial waters. The Mendoza, carrying food for France, attempted to pierce South Atlantic blockade without navicert, but the British ship captured her.

An Appraisal of the Associated Press . . .

On the day following the New Year, chiefs of the A. P. domestic bureaus were meeting with the executive staff, which included Milo Thompson, head of the London Bureau, and three others. Mr. Thompson and his associates were in this country taking respite from London bombings.

An Associated Press member, Talbot Patrick of Goldboro, North Carolina, sent a telegram to the group and in part of it made this significant statement:

"If our American civilization has never been in such danger as now, then democracy's life depends upon you and our fellows in the Associated Press to discover, transmit and to publish the truths upon knowledge of which our free people may decide their fate. God guide and strengthen us, each one."

WHAT A TRIBUTE TO THE GREATEST NEWS GATHERING ORGANIZATION ON EARTH!

WHAT A TRIBUTE TO THE MEN OF THE PAST WHO CONCEIVED AND ORGANIZED THIS GREAT ASSOCIATION!

WHAT A TRIBUTE TO THE MEN OF THE PRESENT WHO DAILY RISK THEIR LIVES AND DARE THE ANGER OF DICTATORS THAT THEY MAY

"DISCOVER, TRANSMIT AND . . . PUBLISH THE TRUTH UPON . . . WHICH OUR FREE PEOPLE MAY DECIDE THEIR FATE."

As long as we have people like Milo Thompson and Louis P. Lochner to gather the truth and more people like Talbot Patrick to recognize and appreciate the truth when it is gathered, "OUR AMERICAN CIVILIZATION" will never perish.

The Times-Mirror is highly grateful of the opportunity afforded it to be a member of equal rights with all of those, large and small, who make up the Associated Press.

OPPORTUNITY—IF WE GRASP IT
The recent Supreme Court decision confirming
control by Congress alone of the 5,000,000 aliens in
our midst is more than a mere legal decision. It is
an immensely suggestive direction-marker.
Pennsylvania had passed a law which, in addi-
tion to compelling aliens to register, required them
to carry at all times a card of identification, with
a jail penalty for being caught without it. The
Supreme Court did not rule on the constitutionality
of this particular act, but simply found that the al-
ready-established federal regulation of aliens took
precedence. States and communities may, therefore,
conclude that it is not their job to regulate aliens,
but that of the federal government.

This great mass of aliens, to which others will
probably be added, is at once a problem and an
opportunity. All wisdom and understanding we can
bring to bear will be needed. Most of these aliens
will probably seek soon to become citizens. Every
facility should be extended to help them to do this.
The foreign-born, says Louis Adamie, writer who has
devoted his recent years to hard work and study
of their problems, "are or want to be whole-heartedly
American in the best sense of the term; the loyalty
to the U. S. of most of the foreign-born is almost
beyond adequate statement."

Any effort to bring high-pressure methods to bear
to try to force Albanians, Slovaks and Lithuanians
into a mold of imitation Anglo-Saxon Americanism
will not only fail—it will drive many newcomers into
the ranks of Fifth Columnists. People yearn to
"belong."

What we need is not to "tolerate" but to "accept"
people whose ways may not necessarily be in every
respect our ways. Because a man prefers spaghetti
or shish kebabs to a New England boiled dinner does
not make him any the less a good American.

Adamie has rendered a service in again pointing
out that the American people and the United States
are still evolving. We have not created a mold into
which newcomers must be forced. We are still cre-
ating a civilization, a country, a culture, to which
all contribute.

That is why the aliens who now seek citizenship,
the foreign-born who live among us, the second-
generation people still ill-at-ease in a land that is
theirs and yet not theirs, are an opportunity, not a
handicap.

They, too, have something to give America. Let
us encourage them to give it!

WEEKLY SERMONETTE
WANTED, MEN OF VISION
MAJOR B. E. FLINN
Salvation Army

Solomon declared "Where there is no vision, the people perish."
Proverbs 29:18.

Dreaming and seeing visions are drastically different. The former
merely idles away valuable time while the latter leads to accomplish-
ments beyond the ability of man to devise.
There is an old saying that keeping one's nose to the grindstone
will definitely limit the circle in which we live. That is one extreme,
too absorbed with our duties, business or pleasure to expand; however,
the other extreme is just as bad. Some go about with their head
higher than they should carry it. A Salvation Army leader once
warned us that "turning up one's nose at our surroundings or associa-
tions" might result in that nose curling up so as to prevent our vision.

How can we experience visions today? Three aids are here sug-
gested: Personal experience, Christian attendance and affiliation—in-
cluding service and family worship in the home.
The Salvation Army is now engaged in a very special effort to
encourage more family religion. To this end our organization is
advancing several ideas which will be co-operative with all faiths.
It is our sincere conviction that this is the need of the hour. In Bible
days, religion was taught in the home. If we are not careful, our
highly organized societies will prevent the continuation of these
helpful and wholesome teachings and their natural outcome—men
and women with vision for the good of the world, and the glory
of our Maker.

Part of our vision for 1941 is the drawing attention to such
essentials. The Constitution tells us that we have the right to life,
liberty and the pursuit of happiness. Americans believe that—and
yet are not fully obtaining them. Need we be awakened to the
possibilities of life here and now, with its intended happiness, and
success?

In old New York times there lived a boy who was having his
first Sunday school picnic on the country. He lay in the green
grass making a chain of daisies when his teacher, seeing a line of
swallows appear across the blue sky line said: "Look up, Jimmy!"
See the beautiful birds flying in the air? He looked up quickly and
answered: "Poor little fellows they haven't got no eggs—have they?"
Jimmy could not see things straight. New York times had defied
his ideas.

What a picture of many a life. They are so close to the
happiest pleasure of earth that they can have nothing to do with it
and sometimes seem for those who set their minds on things above
and breathe the pure inspiration of a divine being.

T-H-O-U-G-H-T-S

Repent ye therefore, and be converted, that your sins may be
blotted out, when the times of refreshing shall come from the presence
of the Lord. Acts 3:19.

Repentance, without amendment, is like continually pouring
out molting the leak. Lukyn.

Here's the Kind of Bottleneck We Like

Man About Manhattan

By GEORGE TUCKER

NEW YORK—"Mr. George Tucker, New York, N. Y.

"Dear Mr. Tucker:
"I happened to run across a syndicated article of yours in the
Times-Placemag of December 19, 1940.
"I read with considerable interest and amusement your comments
to J.D.V. of Kansas City who wrote you asking about me and
Kenneth Roberts.

"While it doesn't matter one iota, I think you might be inter-
ested to know what I'm really like. Whoever your informant
was, he must have been kidding you, for he told you almost a hun-
dred percent wrong. First off, I don't live in Maine (I live in
Maryland), although I know and like that state very much. I never
have met Kenneth Roberts. Third, I do know his work and with the
exception of his most recent novel, I think them thoroughly first class.
Having soldered away these first points, suppose we go on to the rest.

"Personally, I'd rather be skinned alive than attend 'society
and public functions.' I've always
fought clear of literary luncheons,
conferences and authors' clubs—
book fairs, etc., as much as I pos-
sibly could. I think they're good
fun for those who like them, but I
greatly prefer to hunt or fish or
to play polo. The one that really
hands me a thoroughly chuckle is that
crack about the 'natty dresser.'
First off, I don't even own a pair
of striped pants and haven't worn
a white tie since two years ago—
when I attended the governor's
hall at Bermuda. I confess I do
like to put on a dinner coat now
and then, otherwise my prefer-
ences are all for the out-of-doors
although I don't go in for the pro-
fessional 'be-man' stuff.

"If you should pass through
Baltimore after the first of Feb-
ruary, I shall be delighted to take
you out to my gun room in which
I have collected over a hundred
family pieces of firearms that go
back of a period of two hundred
years.
"Please don't think from the
above that I am annoyed or peev-
ish or anything else, but it is just
as easy to give the correct infor-
mation as the cock-eyed.
"Thanks for your nice comments
about the books.
"With all best wishes for the
coming year, Yours sincerely, F.
van Wyck Mason."

This column bows to the world's
best authority on F. van Wyck
Mason. We are carrying a big
stick concealed in our cloak, and
should we come upon the person
who gave us the erroneous infor-
mation about him we will know
what to do with it. GT.

CRANIUM CRACKERS

Famous Phrases
Certain phrases from the
speeches and documents of history
linger in our memories from school
day reading, and are occasionally
brought to mind when used by pre-
sident day orators. Can you identify
the source of the following quo-
tations?

- "We, the people of the United States, in order to form a more perfect Union..."
- "The American continents... are henceforth not to be considered as subjects for future colonization by any European powers..."
- "The world will little note, nor longer remember, what we say here, but it can never forget what they did here..."
- "Never before since James-town and Plymouth Rock has our American civilization been in such danger as now..."
- "We mutually pledge to each other our Lives, our Fortunes and our sacred Honor..."

A Washington Daybook

By JACK STINNETT

WASHINGTON—This unity business seems to be spread-
ing. When "Big Bill" Knudsen is out on official business,
he rides in a big, fine-looking black sedan, with one of those
low-number tags that give visible evidence of a man's impor-
tance around here. But is this one of the General Motors chief's
own makes of cars? It is not. It's a Packard.

That sort of thing apparently is going on all over Washington. If you go into a store and they don't have what you want, they'll send you to their closest competitor. If you can't get a room at one hotel, the clerk invariably will tell you where you can get one. The President dips into the Republican fold to get his Secretaries of War and Navy and a good many other officials in the defense set-up. Wendell L. Willkie, titular head of the G.O.P., throws his weight (with some reservations) behind the Democratic adminis-
tration bill that has promised to give rise to more controversy than any issue before Congress in recent years. And he carries a personal note from F.D.R. to Winston Churchill.

Even in Congress, where the battles rage fiercest and there's plenty of disunity, the situation is causing strange unitings. In any anti-administration huddle on foreign policy, two of the principal bidders are bound to be Sen. Burton K. Wheeler and Sen. Bennett Champ Clark, both Democ-
rats. Then there are Republicans who have added their nods to Mr. Willkie's in favor of adminis-
tration plans.

Capital oldsters are mumbling in their beards. They want to know what the world in general and politics in particular are coming to when you can't tell who a man works for by the kind of car he's riding in?

Unwelcome Offer
THE Nazi propagandists are shooting wild so wild that they are dropping bullets on the doorstep of the President's son-in-law.

John Boettiger of the Seattle (Wash.) Post-Intelligencer recently got a long billet dour from Hamburg, Germany. It was signed Oscar C. Pfau, of the Deutsche

The Worries Of FCC

THE plaint of the radio listeners goes on and the Federal Communications Commission is getting wearier. Now a man in Schenectady doesn't want a patriotic commercial broadcaster to use the national anthem on his program. A Mount Vernon, N. Y., fellow is sore because he has to listen to the plea of a bank for new accounts. Californians want to make an international incident out of the fact that he always tunes in Mexican station inter-
ference on his favorite programs. What the FCC expects any minute now is some one who wants to know how he can tune in in-
terference all the time.

Ann Siegfried and Frederick Donovan United in Marriage

Miss Ann Siegfried, daughter of Mrs. Grace Siegfried, Market street, and Frederick Donovan, son of Mr. and Mrs. B. H. Donovan, Jackson avenue, were united in marriage last evening at six o'clock in the chapel of Trinity Memorial Episcopal church.

Rev. E. Pinkney Wroth, rector, read the service in the presence of the immediate families.

The bride wore a suit of aqua with beaver trim, matching beaver hat and brown accessories, complemented with a pink camellia corsage.

Among those witnessing the simple ceremony were the bride's aunt, Mrs. John Sherwood Kelly, of Cleveland, O.; a brother of the bridegroom, Neil Donovan, with Mrs. Donovan and two sons, of Erie.

The couple will be at home to their friends after January 28 at 22 Carver street.

Her "Lucky" Gown

Metropolitan Opera star Rise Stevens and Texas-born Paris couturier Mainbocher have been close friends since they studied voice together in America and Europe. Their parallel successes have produced the tradition that the young mezzo-soprano wear a Mainbocher gown for each concert debut.

This is the one she wore at Constitution Hall, Washington, when she sang at President Roosevelt's third inaugural concert. It is of white slipper satin with immense gold lame leaves trailing across the skirt.

NEAT VERSATILE COTTON STYLE

PATTERN 4615

By Anne Adams

Your at-home clothes must be planned with extra care from now on. For warmer days will soon be here, and you'll wear your cotton frocks both in and out of doors. This Anne Adams style, Pattern 4615, is the perfect answer—it's easy to make, to wear, to launder; yet it looks smart and attractive. The convenient front buttoning gives a tall-and-slim illusion. Aren't the curved side bodice sections graceful—see how their soft-cut lines are kept in place by shoulder darting and above the waist gathers? The back has just one long panel for a flowing, slim effect.

A young, casual touch is given by the notched collar, while optional pointed pockets make smart and useful carry-alls. Use ric-rac edging for a gay finish!

Pattern 4615 is available in women's sizes 34, 36, 38, 40, 42, 44, 46, 48 and 50. Size 36 takes 4½ yards 35 inch fabric.

Send FIFTEEN CENTS (15c) in coins for this Anne Adams pattern. Write plainly **SIZE NAME, ADDRESS AND STYLE NUMBER.**

The new 1941 Pattern Book by Anne Adams is furnished! So let Mr. Mailman bring the world of fashion to your doorstep! They could not be made however in this budget but "possibly in two or three years," James said.

Besides working on the tax bills, Reno said he was preparing a draft of an amendment to the act of 1938 extending for another two

Six Lose Lives as Snow-storm Sweeps Nation

(From Page One)

Snow ranging up to five inches in depth blanketed counties in the northwest, northeast and southwest.

Three persons died on slippery roads in the southeast. They were Robert Machi, 61, of Duluth, Minn., killed when his car skidded off the Lincoln highway near Paradise, Lancaster county, and crashed into a tree. His wife, Mrs. Helmi Machi, was seriously injured.

A similar mishap took the lives of a brother and sister, James Hawkins, Jr., 18, and Betty, 16, Ardmore High School students. Two companions returning from a basketball game were from throughout Lancaster county, the ice and sleet disrupted power lines, cutting off some communities from sources for hours. Much damage was done to trees.

There was five inches of snow in St. Marys. Trolley and motor traffic slowly returned to normal in Pittsburgh, impeded by slush and snow.

Boston reported two deaths from heart attacks induced by walking in snow, which blanketed the area in falls ranging up to 14 inches in the Berkshire Mountains.

In Cincinnati, Ohio, one man was fatally injured in a fall while leaving his snow-bound car.

The Atlantic ocean was whipped by stormy weather and high seas, said reports from the American Export liner Siboney, bound for New York from Lisbon with 347 passengers. The ship will be delayed until Wednesday, two days late.

Large Audience Attends First of Two Concerts

(From Page One)

Also in this first half of the program was the group of brilliant xylophone solos played by Alvin Washlohn, Oil City high school student who holds the state championship for that instrument. His success at Harrisburg last April was clearly evident in the presentation of Grace's "Valse Brillante" and Kreiser's "The Old Refrain". The necessity of appearing unaccompanied seemed to bother him but slightly and his second number was greeted with such applause that he returned to play another Kreiser work, "Tambourin Chinois".

A feature of the program's latter half was the humorous "Wedding of Heine and Katinka" by Harry Alford, when the audience was treated to an amusing skit that followed the couple, in their bawdy Ford, to the church, on their wedding trip, the return home, and, finally, through a soft lullaby which failed to have the usual soothing effect on the imaginary offspring.

After closing with the familiar and dashing "Night Cavalry Overture" by Hector Berlioz, acknowledged rounds of applause and asked that the audience direct the lion's share of commendation to the individual directors who had laid the ground work for the evening's presentation. The national anthem was played to dismiss the gathering.

The program will be repeated at eight o'clock this evening, the only change being in soloists. First will be Robert Cole, flutist, from Lawrence Park High School, and the second is to be Robert Folkman, local high school tuba soloist, who is the son of Mr. and Mrs. Don E. Folkman and missed

last year's championship by only a small margin.

An interesting sidelight on the concert was emphatic announcement by Dr. LeRoy B. Campbell, who has devoted his entire musical lifetime to developing young musicians and heads the Conservatory, that he had never heard such playing by school musicians in all his extensive travels both in this country and abroad. "No sacrifice of personal plans is too great," he commented, "if it lends encouragement to such a group and such a movement."

M. Claude Rosenberry, state musical director from Harrisburg, visiting here briefly yesterday, paid a sincere tribute to Walter Beeler in the words "he's a man who knows what he wants and how to get it."

Railroads Are Set to Handle Any Increase

(From Page One)

"now we are in perfect condition." "There are no problems of preparedness that bother us," he added.

"I was never more optimistic. The Pennsylvania is looking forward to 10 per cent more business in 1941 than 1940. Business prospects as long as the defense program is in progress transcend anything America has ever witnessed," P. E. Williamson, president of the New York Central, asserted.

"The difficulty during the World War was the lack of proper control of traffic cars moved ahead of ability of receivers to unload them. Now the war and navy departments and the Association of American Railroads have a plan to exercise more control to eliminate any congestion.

"With the new equipment and added efficiency that are common to railroads since the last war, there'll be no difficulty this time in handling any additional volume of business from defense orders," From W. M. Jeffers of Omaha, Neb., president of the Union Pacific, came this statement:

"We have a job to do and we're going to do it. The labor situation is all right. I have the utmost confidence in the rail unions," he added.

Dragons' Big Uprising In Final Period Beats The Dutch

Conroy Again Leads Locals To Loop Win; Owls Crush Ridgway

EMPORIUM WINS OVER SHEFFIELD IN LEAGUE TILT

The Dragons chalked up their fourth league win and their tenth victory of the season at St. Mary's last night, but it took a sensational scoring spurge in the fourth quarter to turn the trick.

The locals trailed through the ball game as the determined Flying Dutchmen took advantage of every Dragon slip, and at the end of the third quarter St. Mary's was on top by two points.

Pick tied it up shortly after the quarter started, but the Dutch took the lead again, and it took a pair of foul goals by Gail Templeton, playing his last game for the Dragons, to deadlock the battle at 29-29. "Red" Tucker, who was yanked in the first period, came through with a pair of field goals to put the locals out in front to stay and Conroy added another, while the best the Dutchmen could do from there in was a charity loss.

"Jap" Conroy continued his scoring spree by netting 17 points and played a big part in the floor game. Tucker accounted for seven, while Cliff Graham, also in blue and white uniform for the last time, came through with five. Johnny Pick hit the hoop twice from afield.

Meanwhile Bradford's league-leading Owls were staying right on the beam by crushing Ridgway on the Elks court, 54-18.

The big surprise of the evening, however, was Kane's 42-13 drubbing of the Johnstown Blue Jays, once considered a prime challenger for Northern League honors. Sheffield put up a gallant fight before bowing to Emporium on the Tuber court, 40-25.

Tuesday night's schedule will bring the Wolves here while Bradford entertains Emporium.

RICE AND LASH VIE FOR TWO-MILE MARK

Boston, Jan. 25.—(U.P.)—If advance promises are kept, Greg Rice, the recent Notre Dame star, and Don Lash, Indiana's flying cop, will be striding for a new world indoor two-mile record tonight when they and six other capable performers start in the Prout Games' Lashlee Special at the Boston Garden.

Both of those speedy Hoosiers are reputed to be in mid-season form and ready to go "all out" to crack the 8:56.2 mark. Rice established in New York last season. That sensational effort wiped out the 8:58 record Lash made here in 1937.

Other starters include Tommy Deckard, also of Indiana, Forest Elav of Oklahoma, Ralph Schwartzkopf of Michigan, and Joe McCluskey, the New York A. C. veteran.

FAMED HURLER DIES AT HOME IN BOSTON

Boston, Jan. 25.—(U.P.)—A 55-year-old baseball cycle, which saw the salaries of leading speedball pitchers jump from less than \$600 a season to more than \$30,000, has been completed by the death of Tommy Bond, the first to lead the National League's moundsmen for two consecutive years.

Although he won a total of 72 games for two pennant-winning Boston clubs in 1877-78, Bond probably was forgotten by all except the game's oldest fans when he passed away here yesterday in his 56th year.

Bond at the age of 20, entered the National League, with Hartford, at its birth in 1876, and a year later, as Manager Harry Wright's only pitcher, he hurled the Boston to the pennant by winning 31 of their 48 starts. In 1878, the club retained its title, for he won 41 of its 60 games.

According to manufacturers, the life of a good tire is estimated at 20,000 miles.

Sheffield, Jan. 25.—Unable to maintain the fast opening pace which put them in front of their opponents and kept them there until just a minute or so before the first half ended, Sheffield High's Wolverines, trailing at the intermission by only 18 to 16, faltered in the face of a terrific half onslaught staged by the Emporium Hi Tubers in a North League contest at Emporium last evening and were defeated, 40 to 25.

"Sonny" Sarick, scoring leader for the evening with 15 points, notched 13 of them in the first half to keep the Tubers in the running, while it was "Phil" Hoffower with five field goals and Captain "Tom" Leonard with 2 who sparked the victory drive of the home-ers in the closing half. "Jimmy" Campasino with 9 points was high man for the Wolverines.

The Wolverine Cubs defeated the Emporium Jayvees in the preliminary, 13 to 9, for Sheffield High's first court victory since Dec. 17.

LOCAL COPS WIN REVOLVER MATCH

With only two scores from each team being counted, the Warren Police finished on top in the second pistol shoot of the week, leading the Warren National Bank, 521 to 501. Wright, of the latter team was high for the match with 279.

The postoffice finished third with 493.

WHITE HORSES WIN

The White Horses chalked up another victory when they tripped the Grace Methodist quintet, 32-31, with B. Scalise and Peterson the outstanding scorers.

Red Burman incorporates skiing in training at Summit, N. J., for fight with Joe Louis at Madison Square Garden, Jan. 31. Consensus seems to be that Baltimore heavyweight will do no better against champion than he is doing on skis.

SPORT SCATTERINGS

Well, the Dragons carried out their part of the bargain last night, although they had to stage a Garrison finish to do it, and it seems a little tough for their efforts to be almost in vain. Unfortunately, there is no place and show money in the Northern League, and it certainly looks like the Owls by a full length at the three-quarter pole. The Wolves ought to be able to take Kane here on Tuesday, although the plienmen ought to be able to take Kane here in claving the tail feathers of the Blue Jays, and Sheffield shouldn't provide much of a problem out of the Blue Jays, and the Bracemon are at home Tuesday in the finale on Friday.

If Warren High School students could read the comments on the lack of sportsmanship in various schools in this section of the state, as written by sports scribes of the respective communities, they would throw out their chests with pride at the reputation that Blue and White teams and the student body enjoy. Columnists who see most of the athletic events occasionally break right out in a rash of adjectives and, while it may help to keep their own blood pressure under control, the fans go right on making you-know-whats out of themselves. As we have often written, Warren has an enviable record of sportsmanship on the part of the players, coaches and followers—we're glad to see each new crop of students maintaining that reputation. The latest outburst is by Joe Szafran, who conducts a fine pillage in the Oil City Blizzard, in the Erie Post-Office game Wednesday night; the official was pelted with an apple after the game ended. Boos, boos and more boos greet unpopular decisions on the Oiler court, and Szafran reports that only the frequent appeals by Coach "Bud" Wells kept the "birds" from continuing longer and more vociferously.

While not true in the Oil City case, we believe it is a fact that the behavior of coaches, themselves, often has a lot to do with the attitude of players. For instance, a "mentor" who is continuously running out on the field or court to bicker with the officials is an inspiration for a lot of players and fans to go and do likewise. A coach who spends a lot of time crying for this and that and who has a club of athletes equally adept at weeping and chesting for every decision. So, perhaps the sportsman-at-weeping and chesting for every decision. So, perhaps the sportsman-at-weeping and chesting for every decision. So, perhaps the sportsman-at-weeping and chesting for every decision.

January 25, 1921.—It is not quite too cold these days for sport lovers to think about the coming summer, and quite naturally the question of a grandstand for Russell Park looms up again. As far as is known, nothing definite has been done toward the construction of this much-needed structure at the popular field. Without a grandstand next summer, it is high time that the school directors and citizens begin to give a grandstand a little thought. (Ed. note: Twenty years later: Yes, it is!)

January 25, 1931.—The Dragons had little trouble with Kane High last night, defeating them 45-24. "J. D." Scalise ran wild for the Kolpienmen and chalked up 17 points. It was the last game for Bob Coates, who becomes ineligible because of the semester ruling.

Three seasons records fell as the Casey rollers took the Arcade slides. . . . Frank Gerardi hit 251 to top Leo Minnell's 243. . . . The Bucks set new records of 942 and 2509. . . . Minnell's 592 was the only mark which withstood the onslaught. . . . Gerardi's 558 was the closest to it.

The Tigers divided and the Bucks clipped three from the Bisons.

CINCY SLABMAN PATTERSONS Notch Win TO APPEAR IN Over Falconer Excel SHEFFIELD TILT Metals On "Y" Court

It was announced today by Richard P. Lott, chairman of the arrangements for the celebration of the President's Birthday, that the athletic event which will be a part of the program will be staged at Sheffield next Thursday evening when the Penn Bottle cagers meet the Punxsutawney Roberts Wholesale team.

One of the features will be the appearance of the Punxsutawney team of Lee Gamble pitcher for the Cincinnati Reds, who keeps in training by working out on the court.

A preliminary will be played at 7:30 o'clock by the Sheffield O'Connors and the Marienville Firemen.

Leo Rossetti and Chet Sadler, two capable officials, have donated their services for the evening also.

Compromise on Aid to Britain Measure Asked

(From Page One)

The house foreign affairs committee are scheduled to close today, the committee, by order of its 15 majority members, will meet again Monday to hear in private three high-ranking military and naval officers—Admiral Harold R. Stark, chief of naval operations, General George C. Marshall, army chief of staff, and Major General George H. Brett, acting army air corps chief.

The proposals for amendments to the legislation have been put forward informally by several legislators, Republican and Democrat. These have also taken the position that they were willing to do anything short of war to aid Britain but that they could not support the bill because in its present form it would make a "blank check" grant of powers to the president.

Concentrating on these critics of the bill, an administration representative, and a congressional leader, were said to have argued that they and the president had the same objective.

Observing that there ought to be some way of compromising over methods, the emissaries were quoted as saying the administration is willing to agree to reasonable modifications in order to obtain passage by a majority that would be interpreted as a sign of unanimity of purpose.

Some opponents, the administration representatives acknowledged, would not be satisfied with anything short of outright defeat of the bill. They were represented as being confident the bill would pass but as desiring a larger majority for it than would be obtained if legislators on the border line of opposition voted against it.

Italians Move to New Site

(From Page One)

on the war front in East Africa. Desert fighters were said to have penetrated 80 miles into British territory from the Anglo-Egyptian Sudan—more than half way to the colonial capital at Asmara, driving past abandoned Fascist outposts at Keru and Aicota.

Somewhere in the mountainous headwaters of the blue Nile, in northwestern Ethiopia, former Emperor Haile Selassie was reported rallying his tribesmen to the Ethiopian standard of red, yellow and green which the Negus unfurled in alliance with Britain.

British bombers were reported to have pounded again yesterday at an Italian air base in Sicily from which German planes have been operating in the Mediterranean. Flares started by the bombing were said to have been visible from the British island of Malta, 60 miles away.

(A lone plane bearing German insignia flew over Gibraltar yesterday, drawing anti-aircraft fire from guns on the rock. It was said to be the first German plane sighted over Gibraltar since the Nazis joined the Italians in the Mediterranean aerial offensive.)

ARMY INSPECTION OF WEAPONS USED BY THE REBELS

was announced that many cases of a plane which had been in charge of Iron Guard commissars, it was reported.

Jap Mediation in Undeclared War Indicated

(From Page One)

ufficiently tangible to call for consideration of the question by the American government.

Already in possession of air and naval bases in the far eastern French colony, Japan long has been suspected here of strongly influencing Thailand policies and actions.

This was evidenced in the early stage of hostilities there by the American government's action in preventing delivery of twenty military planes which Thailand had purchased and for which an export license already had been granted.

The Thailand-Indo-China dispute has been the subject of several conversations between Gaston Henriva-Haye, French ambassador, and state department officials. Some of these talks were understood to have concerned the possibility of American military supplies for Indo-China. The Thailand minister also conferred recently with Secretary Hull.

It was indicated, however, that the United States government regarded the situation as filled with too many uncertainties for any action.

Halifax Takes Over Embassy at Washington

(From Page One)

one of Britain's great naval battleships—the 35,000-ton King George V.

Aboard the dreadnaught Halifax arrived in Chesapeake Bay, six miles below Annapolis, Md., yesterday afternoon. There, after a swift motor trip from Washington to Annapolis where he boarded the yacht Potomac, Mr. Roosevelt welcomed the ambassador and Lady Halifax at nightfall. They had transferred from the warship to the nearby yacht in small boats through fog and rain.

A conference between the chief executive and Halifax followed. Then they and members of their parties dined as the yacht steamed back to port. As soon as it was tied up Halifax received reporters aboard and outlined the work he expects to do in this country.

"I have come here," he said, "as a member of the war cabinet serving as his majesty's ambassador and people of the United States from time to time in what ways, if they are willing, they can best give us the help we need."

"The more quickly your generous help can be made effective, the sooner shall we be able to break this Nazi power that is trying to enslave Europe and the world."

"Of the future he assuredly a rough, difficult and perhaps a very long road before us; but the British people are united as never before in history, and I have no doubt that with your help we shall win through and so save those causes on which your civilization and ours depend."

When the brief press conference broke up the presidential party ashore to waiting automobiles.

Charles Peake, private secretary to Halifax, preceded him ashore. Slung over Peake's left shoulder was an old World War type trench helmet and a modern gas mask.

He said these grim reminders of London bombings belonged to Lord Halifax. Asked why he brought them along, he explained that "one never knows when one might have to return."

YESTERDAY: It seems that although David loves Polly, and Dr. McNeill loves Margo, the girls are not quite so well agreed. So David and the Doctor have decided it might be a good idea to trade girls, in appearance, for a while. Now Dr. McNeill and David are looking over David's old car, wondering whether it could be turned into a sanatorium, and where the money would come from if it could.

AS they drove out of the yard, Warren said: "I'd like to have a good look at the inside of the inn, David—just in case."

"That's all right with me," said David. "We'd better do that first, before it gets too late. No lights out there, you know. We can swim afterwards."

He sped the rattling little car up to its limit, which wasn't anything very breath-taking, and not long afterwards the inn came into view.

Parking close to the main porch, David got out his keys.

"All set for the town, gentlemen?" he asked.

"All set," said Warren.

David unlocked the door. "Suppose you go in first, and I'll wait outside," he said.

Chrysler Turns Idea Into Arsenal In 10 Months... Will Produce Five 25-Ton Tanks a Day by Next Fall

Edward J. Hunt and Lt. Col. H. W. Rehn, U. S. Army command officers of the Chrysler tank arsenal.

First working model for the 25-ton tank Chrysler will produce.

New Detroit Plant Showing the Way To Arms Speedup

BY MILTON BRONNER
NEA Service Staff Correspondent
Detroit, Jan. 25—Come the first days of next fall and five big 25-ton tanks will roll out from a new Chrysler plant in Detroit every day of a five-day week if Edward J. Hunt, bustling god-father of the defense project, knows what he's talking about—and he usually does.

The tanks will be ahead of schedule—to cap a feat of turning a farmer's field into an arsenal in less than a year.

"We have let no grass grow under our feet," says Hunt. "President K. T. Keller of the Chrysler Corporation was asked last June, eighth if he would make tanks. June ninth he discussed the matter with other Chrysler officials. He then went to Washington and talked with the War Department. June 12th he went to Rock Island arsenal to see what medium tanks looked like. June 13th he returned to Detroit and conferred with H. L. Weckler, vice president and general manager of our concern."

The result: Hunt was transferred immediately from his job as general staff master mechanic and told to take charge of tank production. First he tackled 186 pounds of blueprints, a map of the plot of ground outside Detroit, and the plans for building thereon a \$20,000,000 government plant, which could fill an order for 1000 tanks costing \$20,000,000.

Hunt assembled 197 of the company's experts to study the blueprints.

Factory to be Ready in April

The government let the contract last Aug. 15. Sept. 11 ground was broken for the tank arsenal; steel work began Nov. 19. The plant is booked for completion by April. Machinery already on order will be installed then, and by early fall the first tanks should be completed.

The government will supply the tank engines and the armor plating. All the rest of the material will come from the company. Much of this will be in the form of rough castings and forgings from outside plants. The Chrysler job will be finishing and tooling this material and assembling. The tanks will be nine feet high, nine feet broad and 20 feet long. They will have a crew of seven men. Armament will be one 75 mm. gun, one 37 mm. gun, three 30 caliber machine guns and an anti-aircraft gun. The engine will have 400 horsepower.

"It's a complex job," says Hunt. "For instance, the stuff that goes into transmission alone requires 1000 hours of work."

Plant Will Take Five Thousand Men

While the arsenal is being built, the company is getting well along with such preparatory work as making hundreds of blueprints, placing orders for machinery, gauges, dies and precision tools, and considering matter of personnel. Hunt will require 5000 men and experts to pick most of them from the 50,000 in the Detroit plant of his company.

The arsenal will be 1300 feet by 500 feet. It will be streamlined in operation, material flowing along through the various processes until at one end of the building completed tanks will be hoisted by cranes onto waiting railway flat cars. To get five tanks daily, 88 will be in constant process of construction.

Bulky Edward J. Hunt, Canadian-born but long an American citizen, was educated in Michigan and is a practical mechanic, having handled every kind of machine in auto making. He has been with Chrysler more than 25 years.

Around New York

By GEORGE TUCKER

NEW YORK—If P. G. Wodehouse is ever up against it for a title for one of his books I will recommend one to him. It is a line that appeared on page six of the Sunday book section of the New York Times, and it said, simply, "Wodehouse As Usual."

This was the heading the editor had placed over the Times own review of Mr. Wodehouse's latest novel, "Quick Service," written while under the "protective custody" of Nazi concentration camp officials, and just published. The line suggested that here was the same Wodehouse everyone has always known and if this be so, then there is fine precedent for appropriating the line for some future book.

I have in mind a similar experience by a colleague of his—Mr. W. Somerset Maugham, whose most recent volume of short stories was brought out some months ago by Doubleday, Doran & Co.

"WHEN my last volume of short stories was published," Mr. Maugham recalled in a foreword to the book "The Mixture As Before," headed their review with the title "The Mixture As Before." This of course was meant in a derogatory sense, but I did not take it as such and so I have in mind so bold as to use it for the collection which I am now inviting the public to read. After perusing the art of fiction for over forty years

I have a notion that I know a good deal more about it than most people. In that long period I have seen a number of bright stars creep shyly over the horizon, travel across the sky to burn for a while in mid-career with dazzling effulgence, and then dwindle into an obscurity from which there is little likelihood that they will ever emerge again. The writer has his special communication to make, which when you come to analyze it is the personality with which he is endowed by nature, and during the early years of his activity he is groping in the dark to express it. If he is fortunate, he succeeds in doing this, and if there is in his personality a certain abundance he may continue for a long time to produce work which is varied and characteristic. . . . He is wise to watch warily for the signs which will indicate to him that, having had his say, it behooves him to resign himself to silence. . . . He must be content, he must rejoice even, if a new work which he tenders to the . . . public shows no falling off; in fact, it can truthfully be called The Mixture As Before.

IT MAY be said that the Maugham "mixture" whether as before or as now, has always been one that has consistently hit the jackpot; and so if Mr. Wodehouse, who has also been a jack-pot-biter of renown, can maintain the standards of "Wodehouse as Usual" in his future novels he is a man who will have a lot to be thankful for.

The great comet of 1811 was larger than the sun.

ODDITY
A Rhodesian native was attacked by a crocodile, which bit one of his arms. The native retaliated by biting one of the reptile's claws so severely that the member was severed. The agony of the crocodile caused it to release its grip and the native escaped.

"AIR WELLS"
Already successfully used in southern France, air wells operate on a principle the same as that of an ice-filled pitcher, on which water condenses. At night, cold air enters the dome of the "air well" through a central pipe and circulates through the interior core, chilling it thoroughly by morning. As the outside air warms up, it enters and deposits its moisture, which drains into basins.

HELIOPHOBES
According to estimates, there are 10,000,000 heliophobes, or persons who burn and blister instead of acquiring a tan, in the United States.
